WORLD TOUR 2016/17

A Portuguese composer with the eyes on the world, an Australian singer established in New York City, each with his own acclaimed career. Rodrigo Leão heard Scott Matthew's voice and invited him to sing in his 2011 album *The Magic Mountain*, and they fit together like a glove. Ever since, Rodrigo and Scott have been quietly exchanging ideas, emotions, songs, throughout their journeys across the four corners of the world. Their album *Life Is Long*, just released, is the story of their encounter: a composer with the gift of melody and a singer-songwriter that knows how to build on that gift.
